

Henry® Eaveguard® Self-Adhered Shingle Underlayment provides a secondary line of defense to keep water that can get behind shingles from infiltrating further to help ensure the longevity of your roof.

With direct-to-deck application, Eaveguard® is designed to offer protection against water penetration caused by wind driven rain or ice damming when installed in vulnerable areas of steep-slope roofs:

- At eaves, valleys and rakes
- Roof-to-wall connections
- Flashing around chimneys and skylights
- Roof vents and other penetrations
- Full deck coverage

Features and benefits

- Self-seals around nails and fasteners for lasting watertightness
- Sand-surfaced for reliable foot grip and safer installation
- Split-back release liner for easier handling during application
- Shrink-wrap packaging for better product protection during storage in various weather conditions compared to corrugate boxes
- Exceptional tear resistance and extended exposure time for all season performance

Compliance

- Meets performance criteria of ASTM D1970
- ICC-ESR-1930
- ASTM E108 / UL 790 - Class A Fire Resistance
- Florida Building Code Approved Product #FL16724
- TDI Listed

Sizes available

- 1 sq. roll
- 1.95 sq. roll
